# Action lines for volunteering

One of the main objectives of i-life is non-formal education for an intercultural world. With our projects we offer opportunities to discover other social and cultural realities, to act, to communicate, to reflect and thus to learn: "learning by living and living by learning".

**1. Promotion of Non-Formal Education**

**2. Project management and association support**

**3. Environmental Awareness and Action**

**4. Revitalisation of the rural world**

# Promotion of Non-Formal Education

1

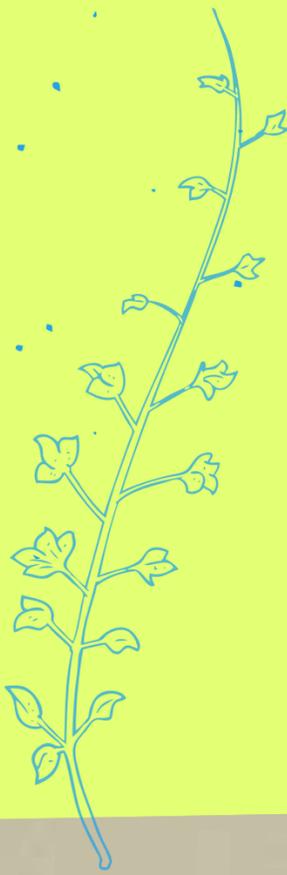

**PARTICIPATION IN NON-FORMAL EDUCATION ACTIVITIES:** logistical support in the preparation of the material and the working room, linguistic support during youth exchanges or the elaboration of written and photographic documents or videos for the dissemination of the project results.

2

**SUPPORT IN HIGH SCHOOLS AND SCHOOLS:** linguistic animation in English, French or German classes and support in the vegetable gardens of schools with which we collaborate.

3

**CREATION OF OWN PROJECTS:** local workshops for children, young people and/or older people, e.g. creative, sports or environmental workshops in the area of the Vega de Granada and with partner educational institutions.

# Project management and association support

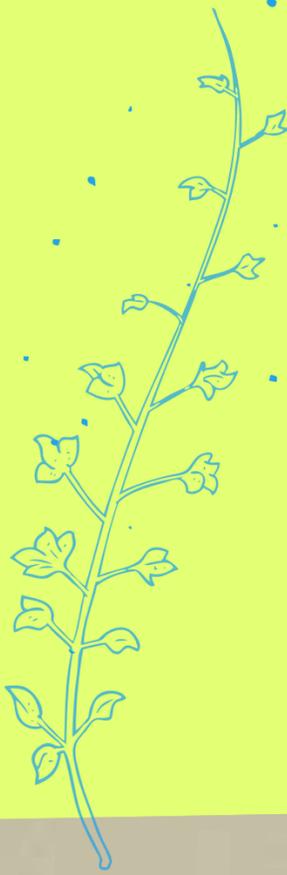

1

**SUPPORT IN ADMINISTRATIVE TASKS:** learning how to manage international educational mobility projects is very interesting for youth participation. Volunteers will be able to approach the network of associations through our network, learning how to manage different project management tasks.

2

**DOCUMENTATION AND DISSEMINATION OF ACTIVITIES:** creation of graphic documents with the results of the different projects as well as the values of the association. Through our different channels, with the support of our communication team (by other local volunteers). International volunteers can experience the creation of posters, videos and digital content for internal networks and memories.

# Environmental Awareness and Action

1

**AGROECOLOGY AND PERMACULTURE:** support in the vegetable garden and other learning spaces or where to contribute ideas and knowledge.

2

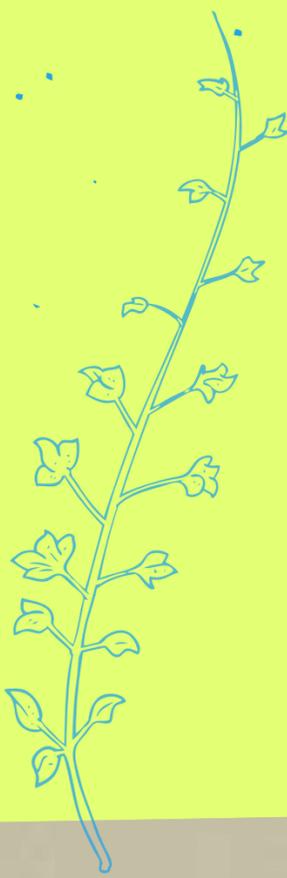

**ENVIRONMENTAL EDUCATION ACTIVITIES AND WORKSHOPS:** both locally and with other centres and associations.

3

**COOPERATION AND NETWORKING WITH OTHER ENTITIES:** in order to continue growing as a network, the volunteers participate in specific activities of other associations such as Salvemos la Vega or the environmental area of Pinos Puente Town Council.

4

**MESSAGE SIGNS:** creation of informative posters on flora and fauna, signs indicating places of cultural and environmental interest to promote the rural development of this area of the plain.

# Revitalisation of the rural world

1

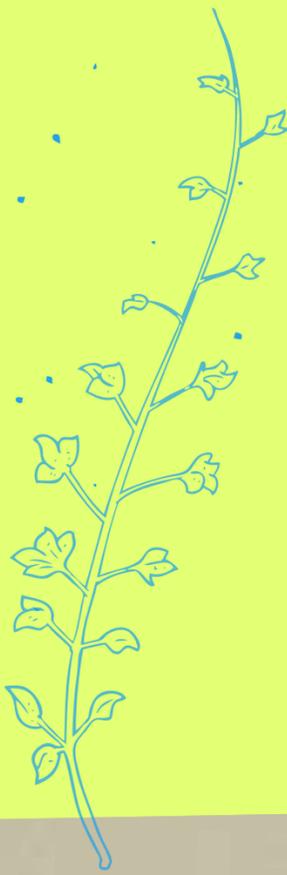

SUPPORT AT THE LIBRARY "MEDIO PAN Y UN LIBRO": creation of a community space through socio-cultural workshops and citizen participation, management of the library and its books.

2

LOCAL SOCIO-CULTURAL EVENTS: support in the preparation and execution of activities for the population of the Vega near Trasmulas.

3

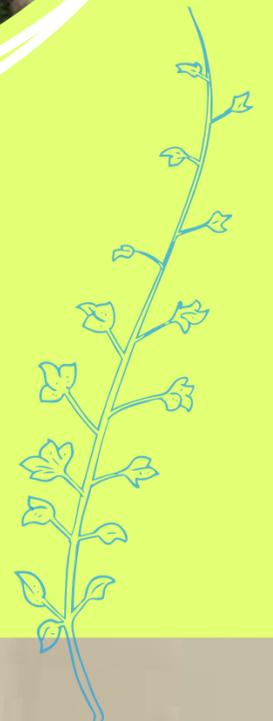

MAINTENANCE OF THE "CHOZA DE TRASMULAS": Support in the rural, ecological hostel and Permanent Learning Centre, built with natural materials such as mud and straw. Activities such as plant maintenance, varnishing, painting, dog care.

# Where we are?

Trasmulas!

The association is located in Trasmulas, a small village in the Vega of Granada. Here we have the office, the volunteer house, the library and the rural hostel.

# Profiles we are looking for

## Persons related to:

- Communication and design
- Library and community spaces
- Education and training
- Agroecology and gardens

## People with:

- The desire to learn
- And to contribute to the project
- Motivation
- To want to live in a rural environment
- Basic level of Spanish

# We are waiting for you!

Are you ready?
